A workhorse

Triple Stage Cooling system cools the heat from the X ray tube, hence **continuous operations** will not deter/stop the machine.

The best detector on the planet

Si Pin Diode Detector is from **AMP-TEK USA** which detects **25+ elements**, who is also the world leader in detectors.

Productive

The large sample placement area, to easily place and remove samples, and the ability to work long time for continuous operations makes the machine extremely productive.
